

INTERNATIONAL SEARCH REPORT

International Application No
PCT/JP2005/000431

A. CLASSIFICATION OF SUBJECT MATTER

IPC 7 C05F7/02 C08K3/22 H01B3/00 C09K5/08

According to International Patent Classification (IPC) or to both national classification and IPC

B. FIELDS SEARCHED

Minimum documentation searched (classification system followed by classification symbols)

IPC 7 C05F C08K H01B C09K

Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched

Electronic data base consulted during the international search (name of data base and, where practical, search terms used)

EPO-Internal, WPI Data

C. DOCUMENTS CONSIDERED TO BE RELEVANT

Category *	Citation of document, with indication, where appropriate, of the relevant passages	Relevant to claim No.
X	EP 0 276 321 A (SHOWA DENKO KABUSHIKI KAISHA) 3 August 1988 (1988-08-03)	1-19
Y	page 13, line 18 - page 16, line 21; claims; examples 12-17; tables 5,7	20
X	US 6 284 829 B1 (B. DALBE ET AL.) 4 September 2001 (2001-09-04) claims	1-19
X	EP 0 361 109 A (MITSUBISHI KASEI CORPORATION) 4 April 1990 (1990-04-04) claims; examples 4,5	1-19
Y	EP 0 342 141 A (INTERNATIONAL BUSINESS MACHINES CORPORATION) 15 November 1989 (1989-11-15) page 6, line 59 - page 7, line 14; claims	20
	-/--	

☒ Further documents are listed in the continuation of box C.

☒ Patent family members are listed in annex.

* Special categories of cited documents :

"A" document defining the general state of the art which is not considered to be of particular relevance
 "E" earlier document but published on or after the international filing date
 "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified)
 "O" document referring to an oral disclosure, use, exhibition or other means
 "P" document published prior to the international filing date but later than the priority date claimed

"T" later document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention
 "X" document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone
 "Y" document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art
 "&" document member of the same patent family

Date of the actual completion of the international search

20 July 2005

Date of mailing of the international search report

20. 10. 2005

Name and mailing address of the ISA

European Patent Office, P.B. 5818 Patentlaan 2

INTERNATIONAL SEARCH REPORT

International application No.
PCT/JP2005/000431

Box II Observations where certain claims were found unsearchable (Continuation of Item 2 of first sheet)

This International Search Report has not been established in respect of certain claims under Article 17(2)(a) for the following reasons:

1. ☐ Claims Nos.:
because they relate to subject matter not required to be searched by this Authority, namely:
2. ☐ Claims Nos.:
because they relate to parts of the International Application that do not comply with the prescribed requirements to such an extent that no meaningful International Search can be carried out, specifically:
3. ☐ Claims Nos.:
because they are dependent claims and are not drafted in accordance with the second and third sentences of Rule 6.4(a).

Box III Observations where unity of invention is lacking (Continuation of Item 3 of first sheet)

This International Searching Authority found multiple inventions in this international application, as follows:

see additional sheet

1. ☐ As all required additional search fees were timely paid by the applicant, this International Search Report covers all searchable claims.
2. ☐ As all searchable claims could be searched without effort justifying an additional fee, this Authority did not invite payment of any additional fee.
3. ☐ As only some of the required additional search fees were timely paid by the applicant, this International Search Report covers only those claims for which fees were paid, specifically claims Nos.:
4. ☒ No required additional search fees were timely paid by the applicant. Consequently, this International Search Report is restricted to the invention first mentioned in the claims; it is covered by claims Nos.:

1 - 20

Remark on Protest

☐ The additional search fees were accompanied by the applicant's protest.

☐ No protest accompanied the payment of additional search fees.

FURTHER INFORMATION CONTINUED FROM PCT/ISA/ 210

This International Searching Authority found multiple (groups of) inventions in this international application, as follows:

1. claims: 1-20

The first invention solves the problem of providing an alternative inorganic powder, which is suitable as thermally conductive filler in resin compositions and allows high loading of the resin composition with the filler without causing the viscosity to increase too much. This problem is solved by the inorganic powder as defined in claims 1-20.

2. claims: 21-38

The second invention solves the problem of providing an alternative resin composition filled with the inorganic powder defined in claims 1 to 20 having a high thermal conductivity and electrical insulating properties and various products comprising this resin composition. This problem is solved by the resin composition as defined in claims 21 to 23 and the products comprising this resin composition as defined in claims 24 to 38.
